.:Apple of His Eye

Clark Zaunbrecher

```
     A                          G
The Lord is my shepherd I shall not want
   D                        A
He leads me into open pastures
     A                        G
The Lord is my shelter I shall not fear
   D                                A
He shields me from harm and disaster

     E                    D                          A
      Though shadows fall and darkness surrounds me
     E                        D                            A
      Though swords are drawn and war is upon me
               E      D                  E
      I will not fear              I will not fall

              D          A          E
      For the Lord will roar from Zion
              E
      And the mountains will tremble
         D          A                    E
      For who can stand before the Lion
                 E
      When His anger is kindled
         D A          E                          D
      For I am His beloved, the apple of His eye
       A              E       A  G  D  A
      I am     His beloved
